Bachelor of Technology 2022-2026

St. Andrews Institute of Technology & Management

🎓 Class 12 TIT Sr. Sec. School | 2022
🎓 Class 10TIT Sr. Sec. School | 2020
PROFILE

My name is Prince, and I am currently pursuing a B.Tech degree. I have a strong interest in technology, coding, and learning new skills. I always try to keep myself ready for new challenges and love exploring new opportunities for growth.

WORK EXPERIENCE

Chessvanguard.com

First real-world development experience
- Contributed to the development of the admin dashboard, teacher panel, and other core modules of the website.
- Worked on both frontend and backend, gaining hands-on experience in full-stack development.
- Designed and implemented the database structure to efficiently manage user data and course content.
- Collaborated with the team to ensure smooth functionality and user-friendly interfaces.

Projects

GitHub Profile Analyzer
- Built a tool that allows users to enter any GitHub username and view key statistics such as total commits, public repositories, and profile details using GitHub's public API.
- Implemented real-time data fetching and dynamic UI rendering for an interactive experience.
- Gained practical experience in working with REST APIs, data parsing, and frontend/backend integration.

IRCTC Booking Assistant – Chrome Extension
- Built a tool that allows users to enter any GitHub username and view key statistics such as total commits, public repositories, and profile details using GitHub's public API.
- Implemented real-time data fetching and dynamic UI rendering for an interactive experience.
- Gained practical experience in working with REST APIs, data parsing, and frontend/backend integration.

Others projects

I have worked on various personal projects including a Weather App using public APIs, an AI Resume Creator, a To-Do List App, and a static travel website. These projects helped me improve my skills in frontend and backend development, API integration, and UI/UX design.
